#### 4 NEW EVALUATION SYSTEM FOR ATHLETES' PROGRESS

In order to follow the athletes' progress and performance continuously, various tests and evaluations were organized and recorded in addition to the observation of the results at the competitions.

**Tests:** time trials on various distances, Cooper test, physical tests (maximal and endurance power) and LA test using workouts on kayak ergo machine,

**Racing results:** the positions and the times were recorded

**Questionnaires:** two types of questionnaires were established:

- One for coaches to evaluate their athletes
- one for the athletes to express their opinion, comments and suggestions regarding the general programme, coaching support, catering and training environment etc. The answers were analyzed
- 

**The test results will be considered for further invitations to TIP. The participant's feedback helps to improve the organization of the TIP.**
